Compliance Report for the conditions in the
Environmental Clearance # J.11011/377/2006-IA.II(I) dated 30.06.2006
issued by Ministry of Environment and Forests, New Delhi
product mix change of pesticide unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June - 12 to November - 12

No	Condition Description	Compliance Status
----	--------------------------	----------------------

December 12, 2012

To,
The Director,
Ministry of Environment & Forest,
Govt. of India,
Eastern Regional Office,
A / 3, Chandrasekharpur,
Bhubaneswar – 751 023.

Dear Sir,

Sub. : Half yearly Environmental Clearance Compliance status report

Ref :- 1) Environmental Clearance # J.11011/377/2006-IA.II(I) dated 30.06.2006

Kindly refer above Environmental Clearance ## J.11011/377/2006-IA.II(I) dated 30.06.2006 and to our unit located at Durgachak, Haldia - 721602, Dist. - Purba Midnapore, W.B.,

Enclosed please find hard copy of half yearly status report for the month of June 12 to November 12 for our unit.

We hope that the above is in order. In case you need any additional information, we can provide the same on hearing from you.

Kindly acknowledge receipt of the same.

Thanks & regards.

Yours faithfully,
For United phosphorus Limited

(S Jana)
Unit Head

Encl. : Status report.

**Compliance Report for the conditions in the
Environmental Clearance # J.11011/377/2006-IA.II(I) dated 30.06.2006
issued by Ministry of Environment and Forests, New Delhi
product mix change of pesticide unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June - 12 to November - 12**

	Condition	Compliance
No	Description	Status

01	Refer letter dated 27.10.2006 along with project documents including Form # 1, Pre-Feasibility Report and draft "Terms of Reference" as per EIA Notification 2006 and subsequent clarifications furnished vide communications dated 17.11.2006 regarding above project	
02	MoEF has examined the application. It is noted that proposal is for product mix change of pesticides in Pesticide Unit at Durgachak, Haldia, East Midnapur, West Bengal, by M/s SWAL Corporation Ltd and product mix change will be carried out at existing site only and no additional land, manpower, water and power will be required. Site is not located in any sensitive or critically polluted area	
03	Additional pesticide product viz. Metamitron (40 TPM) or Acephate (100 TPM) will be manufactured (only one at a time) as an alternate using existing manufacturing facilities with some upgradation related to pollution control measures only viz. Multi Effect Evaporator (MEE), column, pumps etc. Production of Iso Propyl Bromide will be discontinued. Cyclones to boiler and wet scrubbers to incinerator will be provided to control air emissions. All effluent generated will be treated in ETP. Effluent generated during production of Metamitron with high TDS will be treated in MEE and solids along with other solid / hazardous wastes will be sent to CHWTSDF. Total cost of project is Rs 92 Lacs. In view of these features of proposed product mix change of pesticides, Expert Appraisal Committee (Industry) recommended proposal for Environmental Clearance requiring no EIA / EMP and public consultation as per provisions of Section (para) 7 (ii) of EIA Notification 2006	Complied Production detail enclosed. Pl refer Annexure- 1
04	MoEF hereby accords Environmental Clearance to above Unit under EIA Notification 2006 subject to compliance of terms and conditions mentioned below	Noted and complied
SPECIFIC CONDITIONS		
01	The gaseous emissions (SO ₂ , NO _x , HCl & Cl ₂) and particulate matter from various process units shall conform to the standards prescribed by the concerned authorities from time to time. At no time, the emission levels shall go beyond the stipulated standards. In the event of failure of pollution control system(s) adopted by the unit, the respective unit	Complied. We have chimney attached with boiler, DG set. We are monitoring gaseous emission like SO _x , NO _x , HCl & Cl ₂ and testing is being done by WBPCB recognized laboratory & WBPCB itself. All parameters are well within the limit. Monitoring results are enclosed. Pl refer Annexure -2

**Compliance Report for the conditions in the
Environmental Clearance # J.11011/377/2006-IA.II(I) dated 30.06.2006
issued by Ministry of Environment and Forests, New Delhi
product mix change of pesticide unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June - 12 to November - 12**

Condition		Compliance
No	Description	Status
	shall not be restarted until the control measures are rectified to achieve the desired efficiency	
02	Ambient air quality monitoring stations shall be set up as per statutory requirement in consultation with the WBPCB	Complied Ambient air quality is being monitored at different areas by WBPCB recognized laboratory. All parameters are well within the limit. Monitoring results are enclosed. Pl refer annexure -2
03	The stack emissions from various sources shall be controlled by installing cyclones to the boilers and wet scrubbers to the incinerator to control gaseous emissions within the permissible limits	Complied. We have provided cyclone / bag filter to our boiler and wet scrubber to our incinerator. Now our incinerator is idle / kept as stand by and Incinerable waste is being sent to WBWML (a common waste disposal site at haldia) for incineration. Company have internally and external monitoring and all parameters are well within the limit.
04	The fugitive emissions at appropriate places in the plant shall be suitably controlled. Action shall be taken to reduce the air emissions in the work zone environment as far as possible. Fugitive emissions in the workplace environment, product, raw material storage areas shall be regularly monitored. The flue gas emissions shall conform to the standards prescribed by the W.B. Pollution Control Board (WBPCB)	Complied. We have common venting system in process plant and alkaline scrubber system has been provided to control all fugitive emissions. If there is any failure we take prompt action to control the same
05	All the effluent shall be treated in the effluent treatment plant (ETP). High TDS effluent shall be treated in Multi-Effect Evaporator and Salts from MEE shall be sent to the CHWTSDF along with other solid / hazardous wastes. The domestic effluent shall be treated in septic tank followed by the soak pit. The quality of treated effluent shall conform to the standards prescribed by WBPCB / EPA Rules	Complied. All of our effluent is being taken care by our ETP. Solid /sludge generated is being sent to WBWML, a common disposal facility at Haldia. Organic waste is being sent to WBWML for incineration
06	All the recommendations mentioned in the Charter on Corporate Responsibility on Environmental Protection (CREP) guidelines will be followed	Complied. We are maintaining / following all recommendations mentioned in the CREP guidelines.
07	Green belt of adequate width and density shall be developed in at least 33% of the project area to mitigate the effect of fugitive emissions all round the plant. The development of green belt along the boundary wall, open space and avenue roads shall be provided in consultation with the local DFO as per the CPCB guidelines	Complied. This year also we have planning for plantation of 1000 Saplings and distributed 400 Saplings on 5 th June to local people for plantation through WBPCB officials
08	The company shall adopt waste minimization/cleaner production techniques to reduce the pollution load and action plan in this regard shall be submitted to the Ministry within three months	Complied We developed method to recover by-product waste stream also got approval from MoEF vide letter # J-11011/377/2006-IA-II(I) Dated 11.112008. We got NOC / CFO from WBPCB to do this change in process.
09	The company shall undertake rainwater-harvesting measures to recharge the ground water as well as reduce consumption of fresh water	Complied. We have two big ponds to hold rainwater and utilized for gardening.
10	The project proponent shall comply with the environmental protection measures and safeguards recommended in EIA / EMP	Complied. All effluent is being treated by our ETP. Solid hazardous waste is being sent

**Compliance Report for the conditions in the
Environmental Clearance # J.11011/377/2006-IA.II(I) dated 30.06.2006
issued by Ministry of Environment and Forests, New Delhi
product mix change of pesticide unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June - 12 to November - 12**

Condition		Compliance
No	Description	Status
	/ Risk Analysis reports	to Common hazardous waste treatment facility of WBWML. Organic or high COD waste is being sent to WBWML for incinerator. EIA / EMP study was done & report was made. We are implementing the recommendations made in the report
11	The Company shall undertake eco-development measures including community welfare measures in the project area for the overall improvement of the environment. The eco-development plan should be submitted to the WBPCB within three months of receipt of this letter for approval	Complied. We 4 / 5 industries at haldia made a society who are running a school (ICSE / ISE). Not only students form us but out side children are allowed to study in the school. We are also paying donation which goes for development of local students
12	Production of Iso Propyl Bromide shall be discontinued. Additional pesticide product viz. Metamitron (40 MTPM) or Acephate (100 MTPM) shall be manufactured (only one at a time) as an alternate using existing manufacturing facilities	Complied. We have stopped Iso Propyl Bromide production. Since we are using same equipments for Acephate as well as for Metamitron process .
13	Necessary other statutory clearances from concerned departments including 'No Objection Certificate' from the WBPCB shall be obtained prior to commencement of construction and / or operation regarding expansion / modernization	Complied. We have taken all statutory clearances from concerned departments including 'No Objection Certificate' from the WBPCB prior to commencement of construction and / or operation regarding expansion /modernization
GENERAL CONDITIONS		
01	The project authorities must strictly adhere to the stipulations made by the W.B. Pollution Control Board (WBPCB) and the State Government	Complied. There was no violation regarding compliance
02	No further expansion / modifications in the plant shall be carried out without prior approval of the Ministry of Environment and Forests	Complied. We are obeying MoEF guide line
03	The project authorities must strictly comply with the rules and regulations with regard to handling and disposal of hazardous wastes in accordance with the Hazardous Wastes (Management & Handling) Rules, 2003	Complied. We have authorization from WBPCB in that respect. We took membership to WBWML, a common disposal cum incineration facility at haldia and are sending hazardous materials to them
04	The project proponent shall also comply with all the safeguards recommended in the EIA / EMP Report	Complying
05	The project authorities will set up a separate environmental management cell for effective implementation of all the above stipulations under control of Senior Executive	Complied. Done and is being maintained
06	Adequate funds towards capital cost and recurring expenditure/annum shall be earmarked and judiciously utilized to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government and a time bound implementation schedule for all the conditions stipulated herein shall be submitted. The funds so provided shall not be diverted for any other purposes	Complied. Capital expenditure and revenue expenses are part of unit budget. Management has committed to Environmental compliance and regularly arranging funds as and when required
07	The Regional Office of this Ministry at Bhuvaneshwar / Central Pollution Control Board / WBPCB will monitor the stipulated conditions. A six monthly compliance status report and the monitored data	Complied. We are sending status report to Regional office, Bhuvaneshwar. CPCB and WBPCB.

**Compliance Report for the conditions in the
Environmental Clearance # J.11011/377/2006-IA.II(I) dated 30.06.2006
issued by Ministry of Environment and Forests, New Delhi
product mix change of pesticide unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June - 12 to November - 12**

Condition		Compliance
No	Description	Status
	alongwith statistical interpretation shall be submitted to monitoring agencies regularly	
08	The Project Proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the WBPCB / Committee and may also be seen at Website of the Ministry of Environment and Forests at http://envfor.nic.in . This should be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the Regional office at Bhuvaneshwar	Complied. As directed we have made advertisement in two local newspapers and copy of same was sent to Bhuvaneshwar and same was shown to MoEF officials when he visited haldia
09	The Project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of commencing the land development work, if any	Complied. We got NOC and then Consent from WBPCB for Metamitron. We got NOC and CFO for recovery of Hydrazine Sulphate / hydrazine hydrate from MMT residue. We got EC, vide letter # J-11011/914/2008-IA-II(I) Dated 29.04.2009. for expansion for new products and we got NOC & CFO for Asulam / Aslox as part and got NOC for other products (excepting Pretilachlor) for which project work is not yet completed.

December 12, 2012

To,
The Director,
Ministry of Environment & Forest,
Govt. of India,
Eastern Regional Office,
A / 3, Chandrasekharpur,
Bhubaneswar – 751 023.

Dear Sir,

Sub. : Half yearly Environmental Clearance Compliance status report

Ref :- Environmental Clearance # J.11011/914/2008-IA.II(I) dated 29.04.2009

Kindly refer above Environmental Clearance ## J.11011/914/2008-IA.II(I) dated 29.04.2009 to our unit located at Durgachak, Haldia - 721602, Dist. - Purba Midnapore, W.B.,

Enclosed please find hard copy of half yearly status report for the month of June 12 to November 12 for our unit.

We hope that the above is in order. In case you need any additional information, we can provide the same on hearing from you.

Kindly acknowledge receipt of the same.

Thanks & regards.

Yours faithfully,
For United phosphorus Limited

S Jana
Unit Head

Encl. : Status report,

**Compliance Report for the conditions in the
Environmental Clearance # J.11011/914/2008-IA II(I) dated 29.04.2009
issued by Ministry of Environment and Forests, New Delhi
proposed expansion of pesticides unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June -12 to November - 12**

No	Condition Description	Compliance Status
01	Refer letter dated 04.11.2008 and subsequent communication dated 26.02.09 along with Form # 1, Pre-Feasibility Report and additional information on the abovementioned subject seeking environmental clearance under the Environmental Impact Assessment notification, 2006.	Noted and complied
02	MoEF has examined the application. It is noted that M/s, United Phosphorus Ltd. have proposed for expansion of Pesticide manufacturing unit from 325 MTPM to 950 MTPM. Besides by products will also be manufactured. The details of the products to be manufactured are annexed. The unit is located at Durgachak, Haldia, Dist. Purba Medinipue, West Bengal. Proposed expansion will be carried within the existing unit having land area of 60,703 m2. No eco-sensitive areas are located within 10 km radius of the plant. Cost of the project will be Rs. 17.20 Crores.	Complied Company has obtained NOC & CFO for Asulam & Asulox. We have started manufacturing of Asulam & Asulox (formulation of Asulam) only. For other products we obtained NOC only. Capital investment for Asulam Plant is Rs 5.15 Crores.
03	It is noted that water requirement after the proposed expansion will be 453 m3/day and will be met from the Geonkhali water supply and bore well. The present effluent generation is 25 m3/day having facility for primary and secondary treatment which will be increased to 45 m3/day. Presently the effluent are treated in existing ETP and subsequently mixed with other streams like cooling tower blow down, and used for green belt development. About 15 m3/d of high TDS effluent from process are treated in multistage evaporated system and additionally 18 m3/d of high TDS effluent will be generated which will be treated in multi effect evaporator. The mother liquor will have mercury content of 3 to 5 ppm which will be treated by addition of caustic solution /lime and sodium sulphide to convert the soluble mercury to insoluble mercury sulphide. Subsequently, polyelectrolyte or alum will be added for flocculation followed by sludge separation. The effluent will have mercury level less than 0.01 mg/lit before sending to ETP. Power requirement of 4250 KW will be sourced from the WBSEB. Fuel requirement for boiler will be coal (60 MT/day). Fuel requirement for DG set will be HSD(250 lts/hr). Process emissions in the form of SO2 and HCl will be controlled by alkali and water scrubber respectively. The sodium sulphide and 30 % HCl will be recovered as by-product. The cyclone separator has been installed and stack height of 30 m is proposed for the 1 MT and 3MT coal fired boiler to control the particulate emissions.	Complied. Company has obtained NOC & CFO for Asulam & Asulox. We have started manufacturing of Asulam & Asulox only. For other products we obtained NOC only. Generated effluent is being treated in existing ETP.
04	Hazardous waste generation will be in the form of waste from process (6.5 MT/M) and waste from liquid effluent treatment (1.465 MTPM) which will be disposed at WBWM . Waste from MMT process Liquid (Hydrazine Hydrate) (100 MT/M))/ Solid (Na Sulphate) (170 MTPM) will be consumed for MMT/sold. Waste from MMT	Noted and complied Company has obtained NOC & CFO for Asulam & Asulox. We have started manufacturing of Asulam & Asulox only. For other products we obtained NOC only.

**Compliance Report for the conditions in the
Environmental Clearance # J.11011/914/2008-IA II(I) dated 29.04.2009
issued by Ministry of Environment and Forests, New Delhi
proposed expansion of pesticides unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June -12 to November - 12**

Condition		Compliance
No	Description	Status
	process solid (Hydrazine Sulphate) (166.25 MTPM) will be sold to authorized party / WBWML. Rejected material/scrap (1.22 MT/month) will be disposed at WBWML. Coal ash from boiler (60 X 0.25 X 30 MT/month) will be sent for land filling. Asulam formulation (2 MT/month) and Pretilachlor Plant (3.85) will be disposed at WBWML. Used oil (1MTPM) will be sold to MoEF recyclers.	Hazardous waste is being disposed to WBWML. Company have membership of WBWML for disposal of waste generated for landfilling and Incineration.
05	The pesticides manufacturing units have been listed at Sl.no. 5(b) under category 'A' of Environmental Impact Assessment Notification, 2006. The proposal was considered by the Expert Appraisal Committee (Industry) in its 90 th meeting held on 6-8 th January, 2009. The Committee sought additional information and deferred the proposal. On receipt of information, proposal was placed before the Expert Appraisal Committee in its 92 nd meeting held on 18-20 th March, 2009. The committee recommended the proposal for grant of environmental clearance as per para 7 (ii) of EIA Notification, 2006. As the unit is located in the industrial estate, the public hearing/ consultation of the project is not required as per para 7 (i)-III (b) Stage (3) – public consultation of EIA Notification, 2006.	Noted and Complied
06	Based on the information submitted by the project authorities, the Ministry of Environment and Forests hereby accords environmental clearance to above project under the provisions of EIA Notification, dated 14 th September 2006 subject to the compliance of the following Specific and General Conditions:	Noted and Complied
SPECIFIC CONDITIONS		
01	The effluent shall be segregated based on the pollution load. The biodegradable effluent shall be treated in the ETP for primary and secondary treatment and treated effluent after conforming to the prescribe standards shall be used for green belt development. The high TDS effluent shall be evaporated in the multistage evaporator. The mother liquor after mercury recovery shall be treated before discharging into ETP and shall be ensured that concentration of mercury conform to the prescribed standards.	Complied. Company has obtained NOC & CFO for Asulam & Asulox. We have started manufacturing of Asulam & Asulox only. For other products we obtained NOC only. Generated effluent is being treated in an existing ETP. Proposed ETP up gradation approved & will start shortly.
02	Process emissions in the form of SO ₂ and HCl shall be scrubbed with alkali and water scrubber respectively to control SO ₂ and HCL emissions. The by-product shall be recovered as sodium sulphite and 30 % HCl. The emissions shall be dispersed through stack of adequate height as per CPCB standards. The gaseous emissions from the DG sets shall be dispersed through stack of adequate height as per CPCB standards. Acoustic enclosures shall be provided to the DG set to control the noise pollution. The particulate emissions from the coal fired boiler shall be controlled by cyclone separator and emissions shall be dispersed through of stack of height as per CPCB standards.	Complied. Company has obtained NOC & CFO for Asulam & Asulox. We have started manufacturing of Asulam & Asulox only. For other products we have obtained NOC only.
03	The company shall upload the status of	Complied.

**Compliance Report for the conditions in the
Environmental Clearance # J.11011/914/2008-IA II(I) dated 29.04.2009
issued by Ministry of Environment and Forests, New Delhi
proposed expansion of pesticides unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June -12 to November - 12**

Condition		Compliance
No	Description	Status
	compliance of the stipulated environmental clearance conditions, including results of monitored data on its website and shall update the same periodically. It shall simultaneously be sent to the Regional office of MOEF, the respective Zonal office of CPCB and the State Pollution Control Board. The criteria pollutant levels namely; SPM, RSPM, SO ₂ , NO _x (ambient levels as well as stack emissions) or critical sectoral parameters like VOC, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	Flue gas stacks and process stacks Monitoring results are well with in limit.
04	The company shall adopt cleaner production technology to minimize the quantity of fresh water requirement and process effluent generation.	Complied.
05	The Company shall obtain Authorization for collection, storage and disposal of hazardous waste under the Hazardous Waste (Management, Handling and Trans boundary movement) Rules, 2008 for management of hazardous wastes and prior permission from GPCB shall be obtained for disposal of solid / hazardous waste in the TSDF. The concerned company shall undertake measures for fire fighting facilities in case of emergency.	Complied.
06	The project authorities shall strictly comply with the rules and guidelines under Manufacture, Storage and Import of Hazardous Chemicals Rules, 1989 as amended in October, 1994 and January, 2000. All Transportation of Hazardous Chemicals shall be as per the MVA, 1989.	Complied.
07	The company shall undertake following Waste Minimization measures :- a) Metering and control of quantities of active ingredients to minimize waste. b) Reuse of by-products from the process as raw materials or as raw material substitutes in other processes. c) Use of automated filling to minimize spillage. d) Use of "Close Feed" system into batch reactors. e) Venting equipment through vapour recovery system. f) Use of high pressure hoses for equipment clearing to reduce wastewater generation.	a) Complying. b) We are working on this at our R&D. c) We are using semi automatic machine for liquid filling. d) All liquids are being charged through day tank to reactor. And solid is being charged through rotary feeder. e) Complying. f) Complying.
"08	Fugitive emissions in the work zone environment, product, raw material storage area shall be regularly monitored. The emissions shall conform to the limits imposed by SPCB.	Complied . Company have stopped manual handling of Hazardous Chemicals.
09	The project authorities shall provide the chilled brine solution in secondary condenser for condensation of the VOCs. The project authority shall ensure that the solvent recovery shall not be less than 95%. The VOC monitoring shall be carried in the solvent storage area and data submitted to the Ministry.	Complied. We will arrange party shortly for VOC monitoring.

**Compliance Report for the conditions in the
Environmental Clearance # J.11011/914/2008-IA II(I) dated 29.04.2009
issued by Ministry of Environment and Forests, New Delhi
proposed expansion of pesticides unit by
United Phosphorus Ltd., Unit # 9, Haldia, West Bengal
Period June -12 to November - 12**

Condition		Compliance
No	Description	Status
10	Solvent management shall be as follows : A. Reactor shall be connected to chilled brine condenser system. B. Reactor and solvent handling p=ump shall have mechanical seals to prevent leakages. C. The condensers shall be provided with sufficient HTA and residence time so as to achieve more than 95% recovery. D. Solvents shall be stored in a separate space specified with all safety measures. E. Proper earthing shall be provided in all the electrical equipment wherever solvent handling is done. F. Entire plant shall be flame proof. The solvent storage tanks shall be provided with breather valve to prevent losses.	A. Complied. B. Mechanical seals provided for reactor and solvent pumps. C. Complied. D. Complied. E. Complied. F. Complied.
11	Hazardous chemicals shall be stored in tanks in tank farms, drums, carboys etc. An area of 33% shall be developed as green belt. Selection of plants species shall be as per the Guidelines of CPCB.	Complied. We developed 1000 sq. meter for Green belt & 1000 Nos of more trees are being planted in coming monsoon.
12	The Company shall harvest surface as well as rainwater from the rooftops of the buildings and storm water drains to recharge the ground water and use the same water for the various activities of the project to conserve fresh water	Complied. Prepared rain water harvesting plan and will be implemented before monsoon.
13	Occupational health surveillance shall be carried out on regular basis and record shall be maintained as per Factories Act.	Complied. Company have regular medical check up for employees.
GENERAL CONDITIONS		
01	The project authorities shall strictly adhere to the stipulations made by the state Pollution Control Board.	Complied. There was no violation regarding compliance
02	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment and Forests. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.	Complied. We are following MoEF guide line
03	At no time, the emissions shall exceed the prescribed limits. In the event of failure of any pollution control system adopted by the unit, the unit shall be immediately put out of operation and shall not be restarted until the desired efficiency has been achieved.	Complied. Company have regular monitoring and all parameters are well within the limit.
04	The gaseous emissions (NO _x , HCl, & SO ₂ and SPM) and Particulate matter along with RSPM levels from various process units shall conform to the standards prescribed by the concerned authorities from time to time. At no time, the emission levels shall go beyond the stipulated standards. In the event of failure of pollution control system(s) adopted by the unit, the respective unit shall not be restarted until the control measures are rectified to achieve the desired efficiency. Stack monitoring for SO ₂ , NO _x and SPM shall be carried.	Complied. Company have regular monitoring and all parameters are well within the limit.
05	The locations of ambient air quality monitoring stations shall be decided in consultation with the	Complied.
